WELCOME !

A warm welcome to our International Guide - written especially with you in mind.

Studying abroad is one of the most exciting things you can do. You will not only learn academically, but also culturally and socially.

Prof. Gamal Elsaed
Benha University President

BU UNIVERSITY PRESIDENT

PROF. GAMAL ELSAIED

2019 - NOW

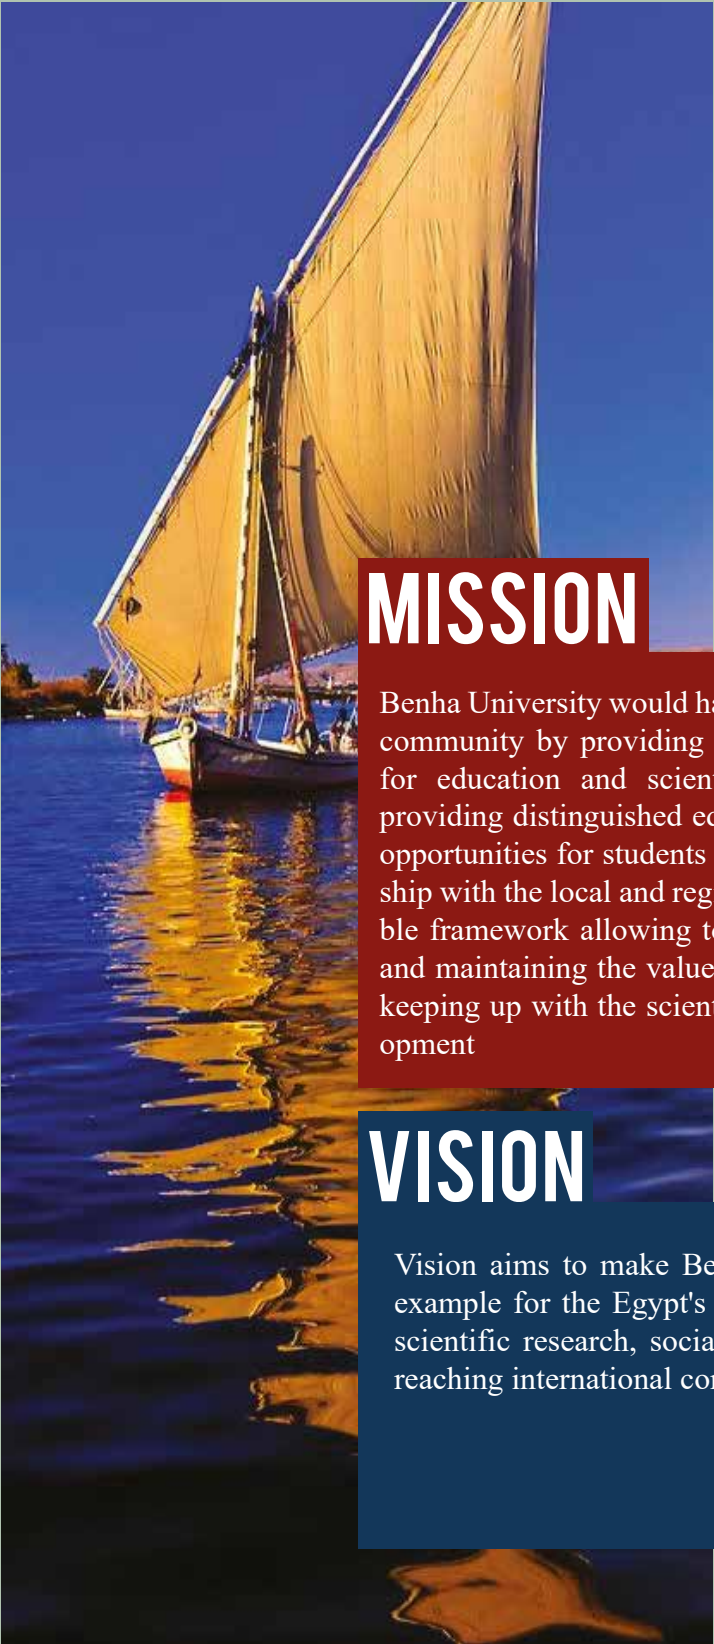

BRIEF ABOUT BENHA UNIVERSITY

LEARN TODAY.. ACHIEVE TOMORROW

Benha University (BU) is one of the prestigious Egyptian public universities. It consists of 16 faculties and 36 special centers and units that serve the university and the community distributed over the university.

WHY BENHA UNIVERSITY

- 1- Benha University has a modern scientific climate for technological advancement which encourages students to be creative and educated.
- 2- The university adopts teaching in Arabic and English. It also has programs for Chinese, French and Japanese in implementation of the university's strategic vision to enable graduates to build a society capable of competing globally with its identity, values and cultural roots.
- 3- Benha University plans to conclude student exchange agreements and joint study programs with universities of many countries, especially the EU countries, China, the United States, Britain, Canada, Australia and Japan.
- 4- Study programs are in line with international education quality standards and those of leading regional and international professional associations.
- 5- Benha University is replete with distinguished academic programs and competent professors.
- 6- Benha University has an interactive learning and advanced learning strategies.
- 7- Benha University has an interactive learning and advanced learning strategies.
- 8- Benha University has centers of excellence in research which support and encourage innovation.
- 9- Education at Benha University is based on skills development and competencies.

MISSION

Benha University would have a role in developing the community by providing a stimulating environment for education and scientific research as well as providing distinguished educational service by equal opportunities for students and increasing the partnership with the local and regional community in a flexible framework allowing to continuous improvement and maintaining the values and ethics of community keeping up with the scientific and technology development

VISION

Vision aims to make Benha University a leading example for the Egypt's universities in education, scientific research, social and university life, and reaching international competition in some fields.

BEFORE YOU ARRIVE

EGYPT is one of the most popular countries in the world to study in. It is renowned for its high educational standards, its heritage, safety and popular culture.

WHY STUDY IN EGYPT?

Egypt will forever be the land of massive achievements. Egypt has been home to tenacious people who have left amazing monuments from the pyramids to the Sphinx. Even in ancient times, people traveled there to see the wonders that had been built. Today, Egypt stands as one of those modern nations that juxtapose their past and present in striking fashion. Modern edifices are jumbled together with small villages and the ruins from past ages, all set against the backdrop of the desert, Nile River and the famous Egyptian monuments. The accumulated wealth of art and architecture of thousands of years resides there. Prepare to be amazed!

ACCOMMODATION

We know that your room will not just be a place to study and sleep, it will be your space to call 'home'.

TUITION

Tuition fees cover the cost of a student's academic studies. This usually includes teaching costs, registration and examination tuition.

TUITION FOR INTERNATIONAL STUDENTS

FACULTIES	ALL POSTGRADUATE		UNDER GRADUATES	
	Tuition Fees \ Year	Application fees for the first time	Tuition Fees \ Year	Application fees for the first time
Medicine	6000	1500	6000	1500
Engineering \ Computers & Artificial tech. \ Physical Therapy	5500	1500	5000	1500
Veterinary Medicine \ Agriculture \ Science \ Nursing	5000	1500	4000	1500
Other Faculties	4500	1500	3000	1500
PAYMENT IN US DOLLAR				

YOU CAN CHOOSE YOUR OWN PATH

Choosing your future is the toughest decision one needs to make. Your peers at BU will go on to become engineers, architects, designers, scientists, lawyers, managers, musicians, professors, economists, entrepreneurs, writers, animators, physiotherapists, film producers, What will your choice be?

With our faculties, we ensure that you achieve your goals and compete with the world in the race of success.

FACULTIES

* Shoubra Faculty of Engineering

Benha Faculty of Engineering

Faculty of Computers & Artificial Intelligence

* Faculty of Science

* Faculty of Agriculture

Faculty of Applied Arts

Faculty of Commerce

Faculty of Education

Faculty of Specific Education

Faculty of Physical Education

Faculty of Law

* Faculty of Arts

* Faculty of Medicine

* Faculty of Veterinary Medicine

* Faculty of Nursing

Faculty of Physical Therapy

* **Benha University has 16 Faculties 7 of them are accredited by The National Authority for Quality Assurance and Accreditation of Education “NAQAAE”**

HOW ARE YOUR STUDIES ORGANIZED?

The first semester starts in the third week of September, for a duration of 15 weeks.

Study resumes in the second semester on week 2 of February, for a duration of 15 weeks.

Midterm exams starts the 7th week of each term.

Final Exams take place during May and June, according to the nature of the study in the various faculties.

YOU WILL HAVE THE BEST CAMPUS LIFE AT BU

STUDY SMART

All classrooms and lecture halls are provided with multimedia projectors and other technical equipments to make learning absorbing and stimulating.

An air Conditioned Central Library, the Knowledge Centre and other dedicated departmental libraries provide the students and staff with a very conducive environment.

ENJOY YOUR CAMPUS LIFE AT BU

BECAUSE YOUR LIFE MATTERS – BU HOSPITALS

University Hospitals are fully equipped to provide healthcare services to university students. The hospitals are staffed with well qualified doctors, nurses, labs, and technicians.

A FULLY WI-FI AND TECHNO ENABLED CAMPUS

The entire campus is Wi-Fi enabled
Computer labs, Digital libraries

ENHANCE YOUR PRACTICAL KNOWLEDGE AND SKILLS

Labs are an integral part of the academic process. In BU, we are strongly committed to provide students with advanced equipped labs that enable them understanding the practical aspects of concepts. We have more than 31 labs for various disciplines.

RETURNING SCHOLARS OFFICE (RSO)

A newly established office has been launched in the university, as a part of the plan of the supreme council of universities.

AIMS

- Improving and activating scientific networks with the external academic organization.
- Initiating an updated database of the returning scholars.
- Briefing and discussing the various aspects of the scholar ship experiences, finding out the obstacles and raising issues for further improvements.
- Maximizing the benefit of having scholars worldwide to promote and advertise for the university.
- Helping the scholars during their scholarships, supporting them after the return.

جامعة بنها
BENHA UNIVERSITY
www.bu.edu.eg

ISO 9001/2015

In line with the university's orientations towards caring for the university's employees and the external public and providing them with the best services, the university's administrative system has certified with ISO 9001/2015. This achievement came as a reflection of the outstanding performance, and in application of the standards of total quality systems at the university's administration level and continuing to improve performance and maintain it to satisfy customer requirements professionally and distinctly.

THE UNIVERSITY HOSTELS

The University Hostels are one of the most important sectors that care socially, health, scientific, cultural and athletic aspects for the expatriates students.

BU has many hostels:

- Hostel of male students (Benha city)
- Hostel of female students (Benha city)
- Hostels (Shoubra City)
- Hostels (Moshtohor City)
- Hostel (Toukh City)

FACULTY OF ENGINEERING AT SHOUBRA

ACADEMIC DEPARTMENTS

1. Mechanical Engineering
2. Civil Engineering
3. Electrical Engineering
4. Surveying Engineering
5. Architectural Engineering
6. Power Engineering and Sustainable Energy
7. Engineering Mathematical and Physical

NEW PROGRAMS

1. Industrial Engineering Program
2. Energy and Sustainable Energy Program
3. Electrical Engineering and Control Program
4. Communication and Computer Engineering Program
5. Construction Sites Engineering and Management Program

FACULTY OF ENGINEERING AT SHOUBRA

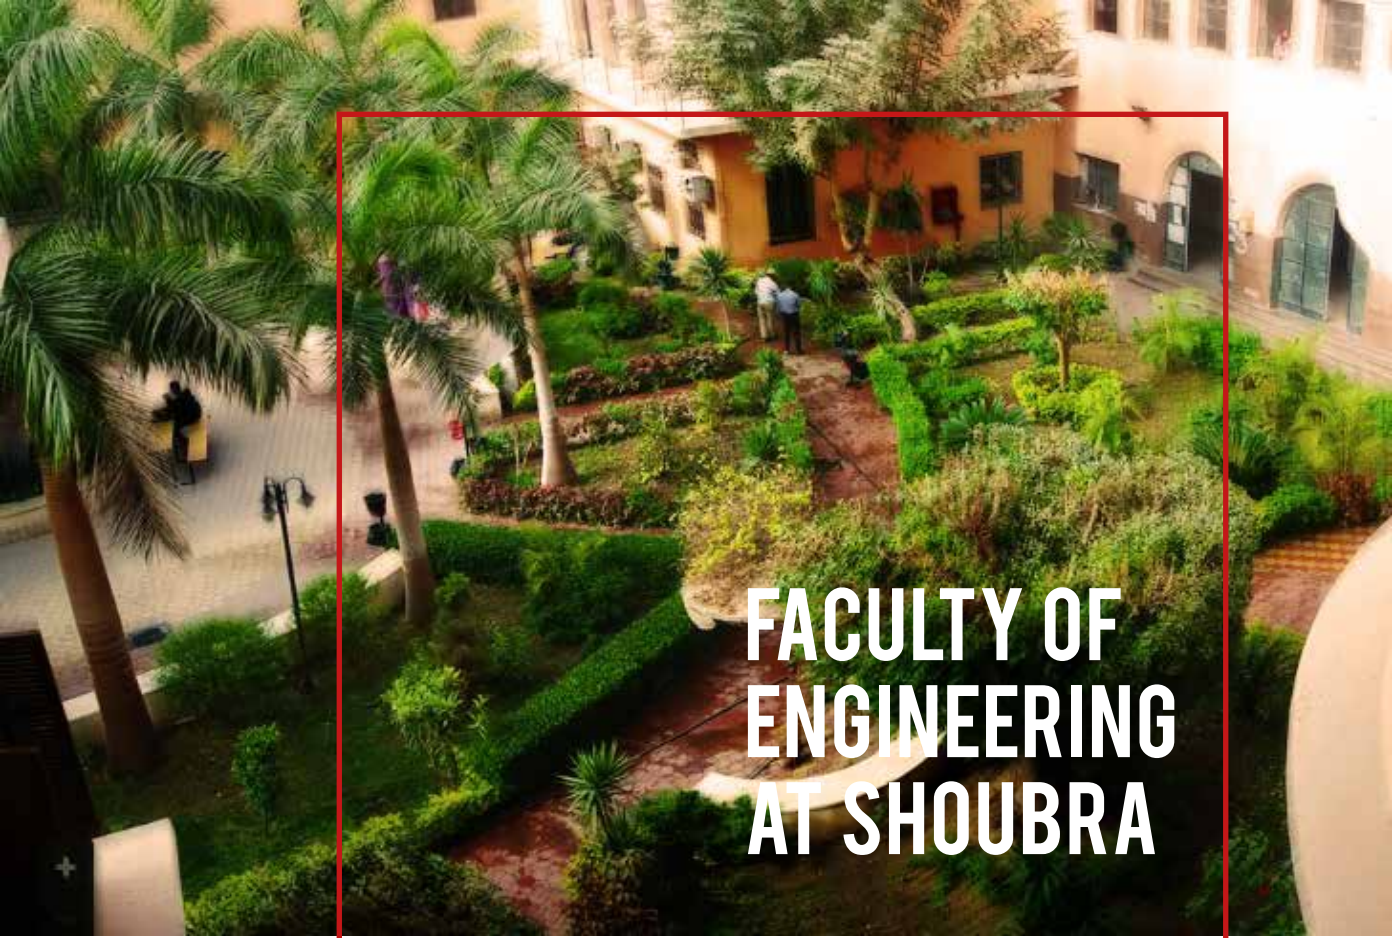

Accredited by National Authority for Quality Assurance and Accreditation of Education.

ESTABLISHMENT

Was established in 1961.

- The Faculty of Engineering at Shubra, Benha University seeks hard to be a leading faculty in fields of engineering education and scientific research at the regional and international level. It looks forward to providing distinguished social services.

- The faculty is committed to graduate engineers provided with knowledge and professional skills which qualify them to compete at the local and regional level to promote the profession and the engineering education in the frame of the human and moral values. The faculty is committed also to provide distinguished scientific research at the international level and social services throughout its centers and units.

FACULTY OF ENGINEERING AT SHOUBRA

ACADEMIC DEGREES

- 1- Bachelor's degree (B.Sc.) in the engineering in one of the faculty specialties except Engineering mathematical & physical.
- 2- Post graduate Diploma, M.Sc., M. Eng. and Ph.D. in the faculty specialties.

STUDY DURATION

- Five years.
- The study language in all programs is English.

WEBSITE

<http://www.feng.bu.edu.eg/feng/en/>

ESTABLISHMENT

Was established in 1988 under the name of “Benha High Institute of Technology” then joined Benha University in 2006 and became “Benha Faculty of Engineering”.

ACADEMIC DEPARTMENTS

- 1- Mechanical Engineering.
- 2- Electrical Engineering.
- 3- Civil Engineering.
- 4- Basic Sciences Engineering
- 5-Architecture Engineering

ACADEMIC DEGREES

1- Bachelor's degree in Engineering in one of the following specialties:

- Mechanical Engineering (Production & Design - Mechanical Power - Mechatronics Engineering),
- Electrical Engineering (Control & Electrical Power Engineering - Communication & Computer Engineering - Biomedical Engineering)
- Civil Engineering.
- Architecture Engineering.

In addition, there exist three other credit hours programs with fees as follows:

- Electromechanical Engineering
- Construction Engineering and Management
- Infrastructure and Utilities Engineering

2- Postgraduate Diploma in many Specialties.

3- M.SC. Degree in Engineering in one of the Faculty specialties.

4- Ph.D. Degree in Engineering in one of the Faculty specialties.

STUDY DURATION

- Five years.

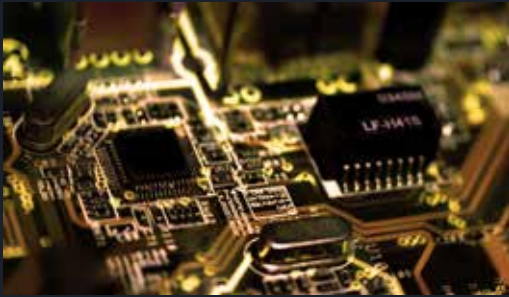

WEBSITE

FACULTY OF COMPUTERS & ARTIFICIAL INTELLIGENCE

ESTABLISHMENT

Was established in 2006

ACADEMIC DEPARTMENTS

1. Computer Science
2. Information Systems
3. Scientific Computing
4. Artificial Intelligence

NEW PROGRAMS

1. Information Security and Digital Forensics Programs
2. Medical Informatics Program
3. Networking and Mobile Technologies Program

ACADEMIC DEGREES

- 1- Bachelor's degree in Computers and Artificial Intelligence - Specializes in Computer Science, Information Systems, Artificial Intelligence or Scientific Computing.
- 2- M.SC. Degree in Computers and Informatics, Specializes in Computer Science, Information Systems, or Scientific Computing.
- 3- PhD Degree in Computers and Informatics, Specializes in Computer Science, Information Systems, or Scientific Computing.

- The Faculty is seeking to achieve a distinguished status in the areas of computer science and information technology on both the national and international levels.
- The mission of the faculty is to establish a distinguished base of alumni who are specialized and highly-skilled in the areas of computer science and information technology and to make vital contributions in developing scientific research that benefit the surrounding community and the overall society.

STUDY DURATION

- Four years.

WEBSITE

<http://www.fci.bu.edu.eg/fci/en/>

FACULTY OF SCIENCE

Accredited by National Authority for Quality Assurance and Accreditation of Education.

ESTABLISHMENT

Was established in 1981

ACADEMIC DEPARTMENTS

1. Zoology
2. Physics
3. Mathematics
4. Chemistry
5. Botany and microbiology
6. Geology
7. Entomology

STUDY DURATION

- Four years.

WEBSITE

<http://fsci.bu.edu.eg>

ACADEMIC DEGREES

1- Bachelor's degree in Science in one of the following specialties: Botany - Biochemistry - Entomology - Physics - Mathematics - Computer Science - Applied Chemistry - Botany and Chemistry - Statistics - Computer and Statistics - Zoology and Chemistry - Entomology - Biotechnology - Geo Physics.

2- The Bachelor of Science degree is awarded in one of the dual specializations:

- Chemistry and Physics
- Chemistry and Botany
- Medicinal and microbiological insects
- Radio Chemistry and Chemistry
- Chemistry and Microbiology
- Chemistry and Geology
- Chemist and Entomology
- Chemistry and zoology

3- Postgraduate Diploma in one of the Faculty Specialties.

4- M.SC Degree in Science in one of the Faculty Specialties (Credit Hours).

5- Ph. D Degree in Science in one of the Specialties that granted the master's degree

6- Diploma in Science in one of the Faculty Specialties

NEW PROGRAMS

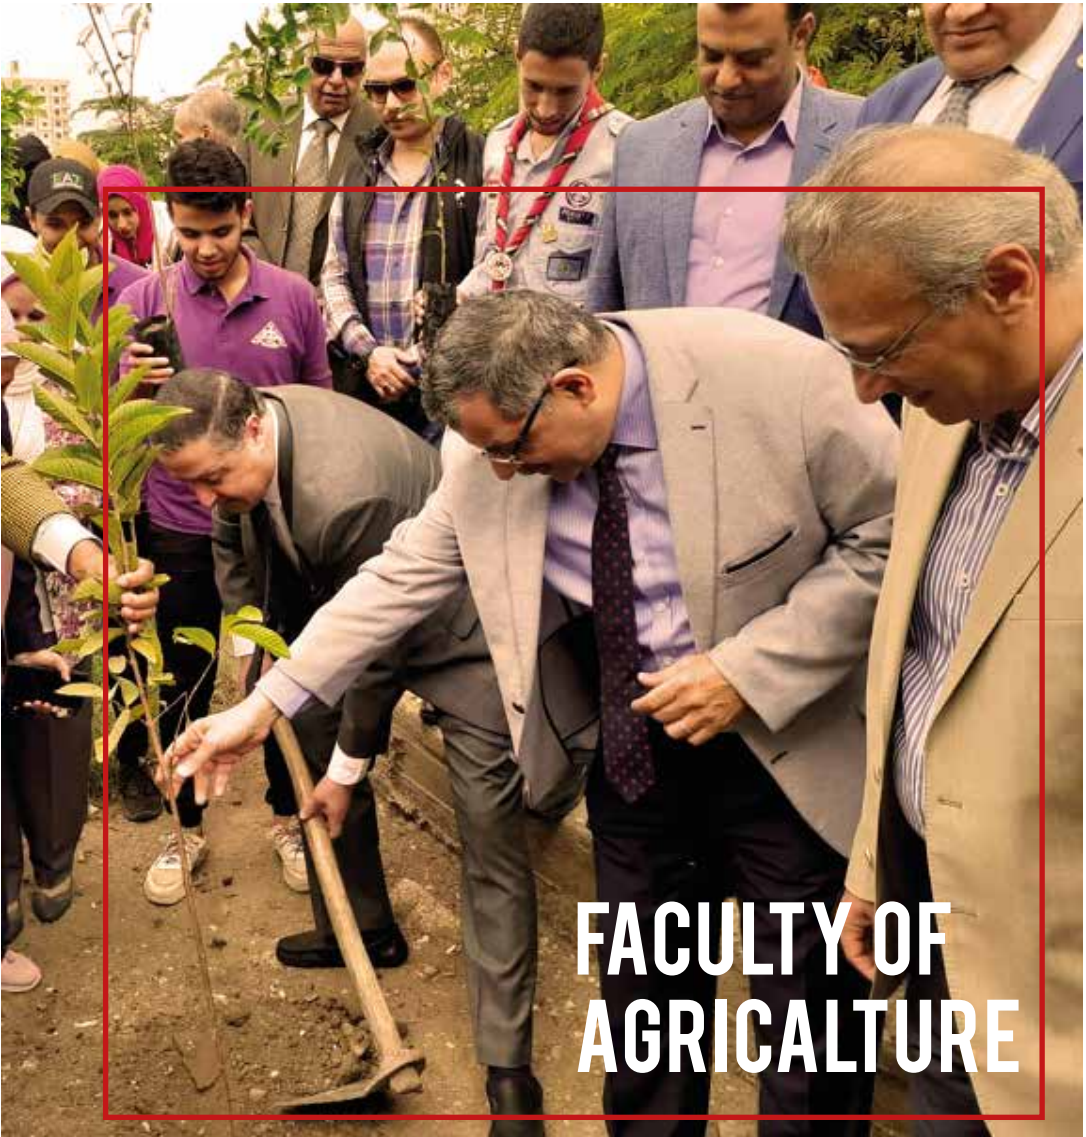

Bachelor's degree

- 1- Microbiology and Biochemistry
- 2- Nanoscience of Materials Science and its Applications

Postgraduate stage

- 1- Postgraduate Diploma in Analytical Biochemistry
- 2- Postgraduate Diploma in Radiation Physics
- 3 - Postgraduate Diploma in Occupational Safety and Health

-
- The Faculty looks forward to being a distinguished institution at invention and innovation and to spreading knowledge and science, in addition to being as experience home of Qalubia governorate specially and the republic generally.

ESTABLISHMENT

Was established in 1911 approved by the National Accreditation and Quality Authority in 2016.

ACADEMIC DEPARTMENTS

- | | |
|----------------------|--------------------------|
| 1. Agronomy | 7. Food Science |
| 2. Horticulture | 8. Plant Pathology |
| 3. Animal Production | 9. Agric. Biochemistry |
| 4. Plant Protection | 10. Genetics |
| 5. Soil | 11. Agric. Engineering |
| 6. Agric. Economics | 12. Agric. and Education |

DISTINGUISHED ACADEMIC PROGRAMS

(In English Language - (Credit Hours)

Bachelor's degree in one of the following Specialties:

- 1- Agriculture Biotechnology Program
- 2- Food Safety Program
- 3- Agribusiness Program
- 4- Desert Land Reclamation and Cultivation Program.

ACADEMIC DEGREES

- 1- Bachelor's degree in Agriculture Sciences in one of the following Specialties:
Agronomy Production- Agricultural Biochemistry- Plant Protection -Genetics-Soil and Water -Agricultural Engineering Agricultural Economics Agricultural and Education (Credit Hours).
- 2- M.SC. Degree Agriculture Sciences in one of the Faculty Specialties (Credit Hours).
 - * Food Science Horticulture
 - * Plant Pathology
 - * Animal
 - * Ph. D Degree Agriculture Sciences in one of the Faculty Specialties (Credit Hours)

STUDY DURATION

- Four years are required.

WEBSITE

<http://www.fagr.bu.edu.eg/fagr/en/>

- Preparing specialists in the various fields of Agricultural Sciences to compete in the labor market and conducting applied scientific research that effectively contributes to achieving the governments' agricultural development plan. Also to activate the positive interaction between the college and society locally and regionally to serve the agricultural sector and develop the environment, in a framework based on the principles of transparency, integrity, equal opportunity, commitment to outstanding performance and continuous development.
- Upgrading the quality of agricultural education in the college to achieve excellence and quality while enhancing the student's ability to self-learn and applied scientific research aimed at the college to be a source of competencies from graduates and researchers who are able to compete regionally and globally and contribute to achieve sustainable development and a center for scientific and technical radiation that serves the agricultural sector and develops the environment.

The background of the top half of the page is a reproduction of the painting 'The Starry Night' by J.M.W. Turner. The painting depicts a turbulent, swirling night sky filled with bright, glowing stars and a large, luminous crescent moon. Below the sky, dark, silhouetted hills and a cypress tree are visible. A white rectangular border frames the central text area.

FACULTY OF APPLIED ARTS

ESTABLISHMENT

Was established recently in 2011

ACADEMIC DEPARTMENTS

1. Spinning and Weaving and Knitting Department
2. Department of Textile Printing, Dyeing, and Finishing
3. Apparel Technology & Fashion Department
4. Interior Design and Furniture Department
5. Industrial Design Department
6. Department of Jewellery and Metal Products
7. Department of Sculpture, Architectural Forming and Restoration
8. Advertising, Printing and Publishing Department

ACADEMIC DEGREES

- 1- Bachelor's degree in Applied Arts in one of the following Specialties:
Spinning and Weaving and Knitting -
Textile Printing, Dyeing, and Finishing -
Apparel Technology & Fashion - Interior
Design and Furniture - Industrial Design -
Jewellery and Metal Products - Sculpture,
Architectural Modeling and Restoration -
Advertising, Printing and Publishing
(Credit Hours).

2- M.SC. Degree Applied Arts in one of these Specialties (Credit Hours).

* Spinning and Weaving and Knitting - Textile Printing, Dyeing, and Finishing - Apparel Technology & Fashion - Jewellery and Metal Products - Sculpture, Architectural Modeling.

3- Ph. D Degree Applied Arts in one of these Specialties (Credit Hours)

* Spinning and Weaving and Knitting - Textile Printing, Dyeing, and Finishing - Apparel Technology & Fashion - Jewellery and Metal Products - Sculpture, Architectural Modeling .

NEW PROGRAM

1. Furniture Design and Production Sciences

- The Faculty of Applied Arts – Benha University is committed to graduate a designer provided with mental knowledge and skills for innovation and competition at the local and regional levels with the ability to present a scientific research globally related to the needs of the industrial society.

STUDY DURATION

- Five years are required.

WEBSITE

<http://www.fapa.bu.edu.eg/fapa/en/>

FACULTY OF COMMERCE

ESTABLISHMENT

Was established in 1976.

ACADEMIC DEPARTMENTS

- 1- Accounting
- 2- Economics
- 3- Business Management
- 4- Applied Statistics

ACADEMIC DEGREES

- Bachelor degree of Commerce at one of the following Specialties:
Accounting- Business Management- Economy- Applied Statistics
- Master degree at:
Accounting- Business Management- Economy- Applied Statistics
- Doctoral degree at:
Accounting- Business Management- Economy- Applied Statistics
- Diploma degree of Post graduate studies:
Accounting and Auditing - National Accounting and Governmental
- Cost Accounting - Manpower Management - Marketing - Computer and
Information System - Energy Economics - Projects Economics - Operations
Research and of Quantitative Methods.
- Master Business Administration (MBA)

- The faculty is seeking excellence in preparing a talented alumnus who is able to deal with the various requirements of labor market locally and globally and preparing a faculty member who have ability to equal his counterpart at the universal universities.

STUDY DURATION

- Four years are required.

WEBSITE

<http://www.comm.bu.edu.eg/>

FACULTY OF EDUCATION

ESTABLISHMENT

Was established in 1976

ACADEMIC DEPARTMENTS

1. The Fundamentals of Education
2. Educational Psychology
3. Curriculum, Instruction & Educational Technology
4. Mental Hygiene
5. Comparative Education & Educational Administration

ACADEMIC DEGREES

The Faculty of Education awards the degree of Bachelor of Arts and Education in the following majors:

1. Arabic and Islamic Studies
2. English
3. History
4. Philosophy and sociology
5. Arabic language (primary Education).
6. Social studies (primary Education).

**The Faculty of Education is awarded a Bachelor's degree in Science and Education in the following majors:

1. Chemistry
2. Physics
3. Biological and geological sciences.
4. Mathematics.
5. Science in primary Education
6. Mathematics in primary Education

**The Faculty of Education awarded the following diplomas:

1. General Diploma in Education.
2. Professional Diploma in Education.
3. Special Diploma in Education.

**The Faculty of Education granted a Master's degree in Education.

**The Faculty of Education awards the Doctoral degree of Philosophy in Education.

FACULTY OF EDUCATION

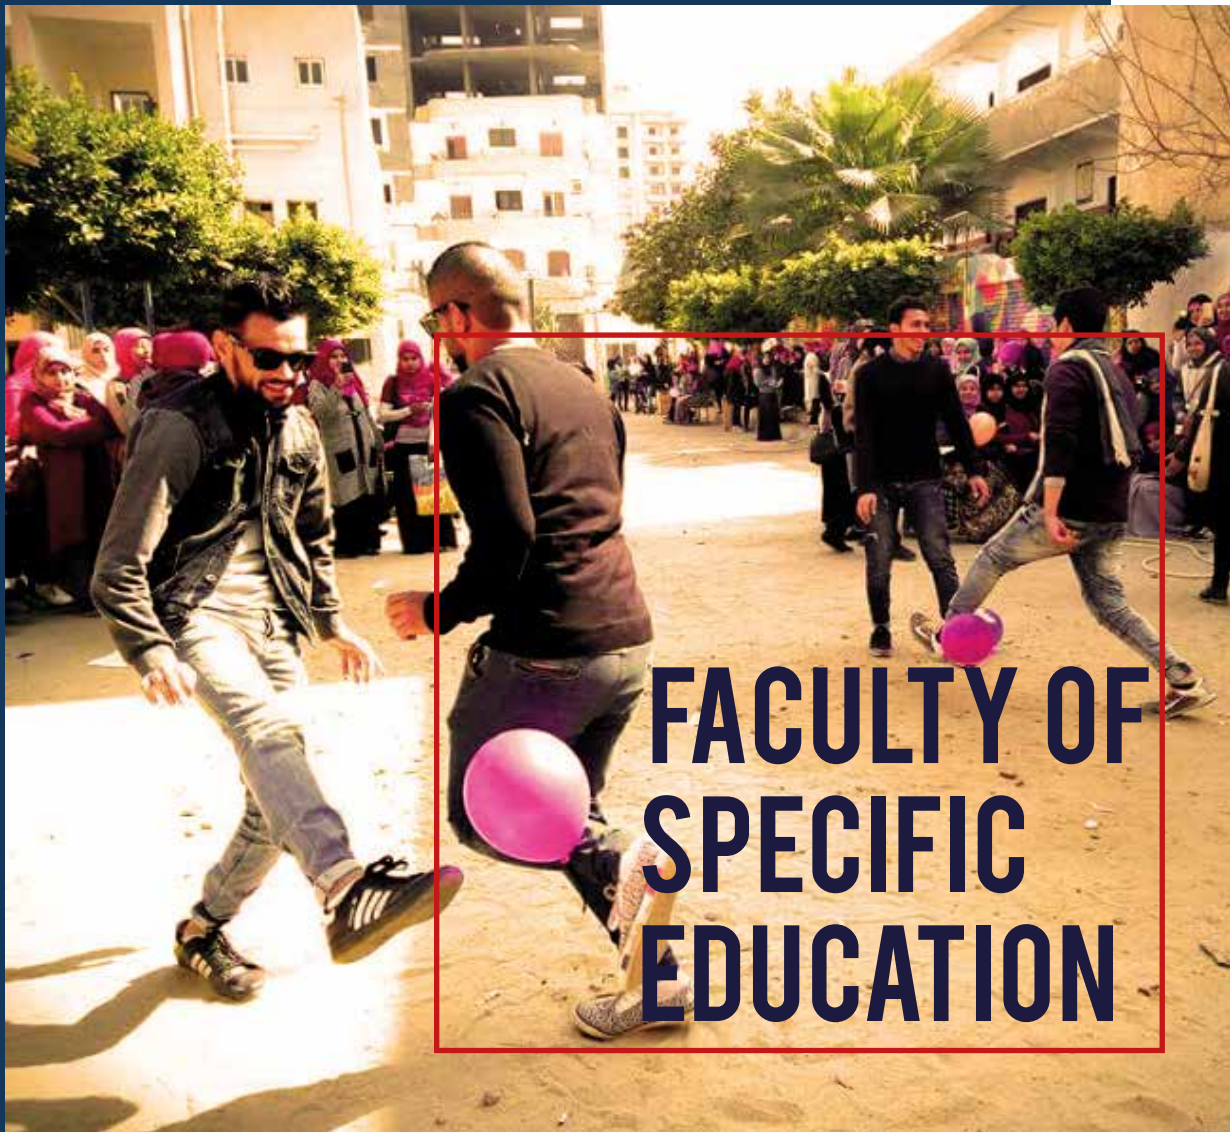

STUDY DURATION

- Four years are required.

WEBSITE

<http://fedu.bu.edu.eg/fedu/en/>

FACULTY OF SPECIFIC EDUCATION

ESTABLISHMENT

Was established in 1993

ACADEMIC DEPARTMENTS

1. Home Economic
2. Art Education
3. Kindergarten
4. Musical Education
5. Educational Media
6. Education Technology
7. Educational and Psychological Sciences

ACADEMIC DEGREES

- 1- Bachelor's degree in Specific Education in one of the Faculty Departments.
- 2- M.SC Degree in Specific Education in one of the following specialties:
 - * Art Education – Kindergarten – Music Education – Home Economics – Education Technology – Educational and Psychological Sciences - Educational Media.
- 3- Doctoral Degree in one of specialties which grant the Masters Degree.

- The Faculty of Specific Education seeks to prepare and develop programs and courses of various departments for reaching to the highest degree of scientific competence. The Faculty looks forward to reaching the global levels for serving the labor market and community.
-

STUDY DURATION

- Four years are required.

WEBSITE

<http://www.fedv.bu.edu.eg/fedv/en/>

FACULTY OF PHYSICAL EDUCATION

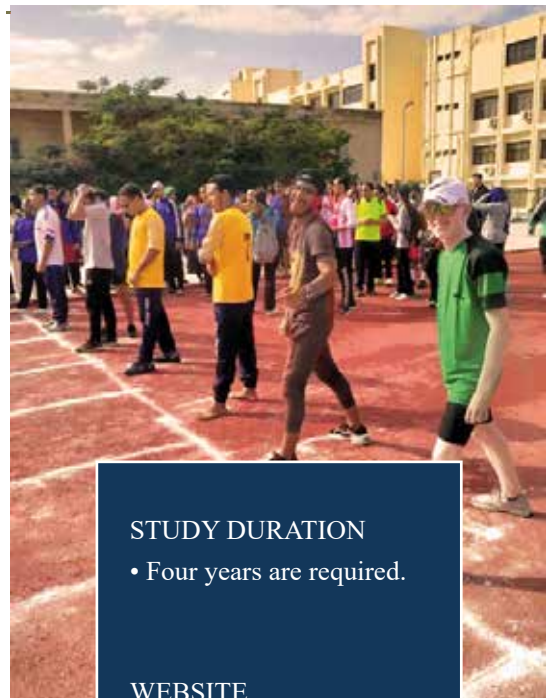

- We are looking forward to be the best Physical Education faculty in Egypt and to be among the best in the Middle East by our creativity and pioneering in education and scientific researches. We also hope to serve the society through students' participation in making decisions which affect on their educational process.
-
- The faculty seeks to be one of the pioneering faculties in physical education field on both local and regional level during the following 10 years. Also the faculty seeks to graduate a student who will be able to meet the labor market needs and cope up with the global scientific researches on both local and regional level in physical education field.

ESTABLISHMENT

Faculty of Physical Education was established in 1995

ACADEMIC DEPARTMENTS

1. Curricula and teaching methods in physical education
2. Sports management and recreation
3. Educational Sciences and Psychological and Social in Physical Education
4. Sports training and kinesiology
5. Health Sciences sports
6. Theories and applications of water sports
7. Theories and applications of the track and field
8. Theories and applications of gymnastics and exercise and Sports Festivals
9. Theories and applications of team sports and tennis sports
10. Theories and applications of fighting sports

STUDY DURATION

- Four years are required.

WEBSITE

<http://fphe.bu.edu.eg/fped/en>

ACADEMIC DEGREES

- 1- Bachelor's degree in Physical Education.
- 2- Postgraduate Diploma in Physical Education.
- 3- M.SC Degree in Athletic training — Organization and Management.
- 4- PhD Degree in one of the specialties that granted in the master's degree.

FACULTY OF LAW

- The Faculty of Law, Benha University seeks to be a regional leader in law and community participation. The Faculty seeks also to create a generation that is able to compete in the labor market and develop its legal skills. The faculty does its best to prepare researchers that are able to conduct legal researchers to serve the local and regional community.

STUDY DURATION

- Four years.

WEBSITE

www.flaw.bu.edu.eg/flaw/en

FACULTY OF LAW

ACADEMIC DEPARTMENTS

1. Public International Law
2. Procedures act Law
3. Commercial Law
4. Public Law
5. Civil Law.
6. Private Law
7. Sharia
8. Criminal Law
9. Finance and Economic
10. Philosophy of Law and its history

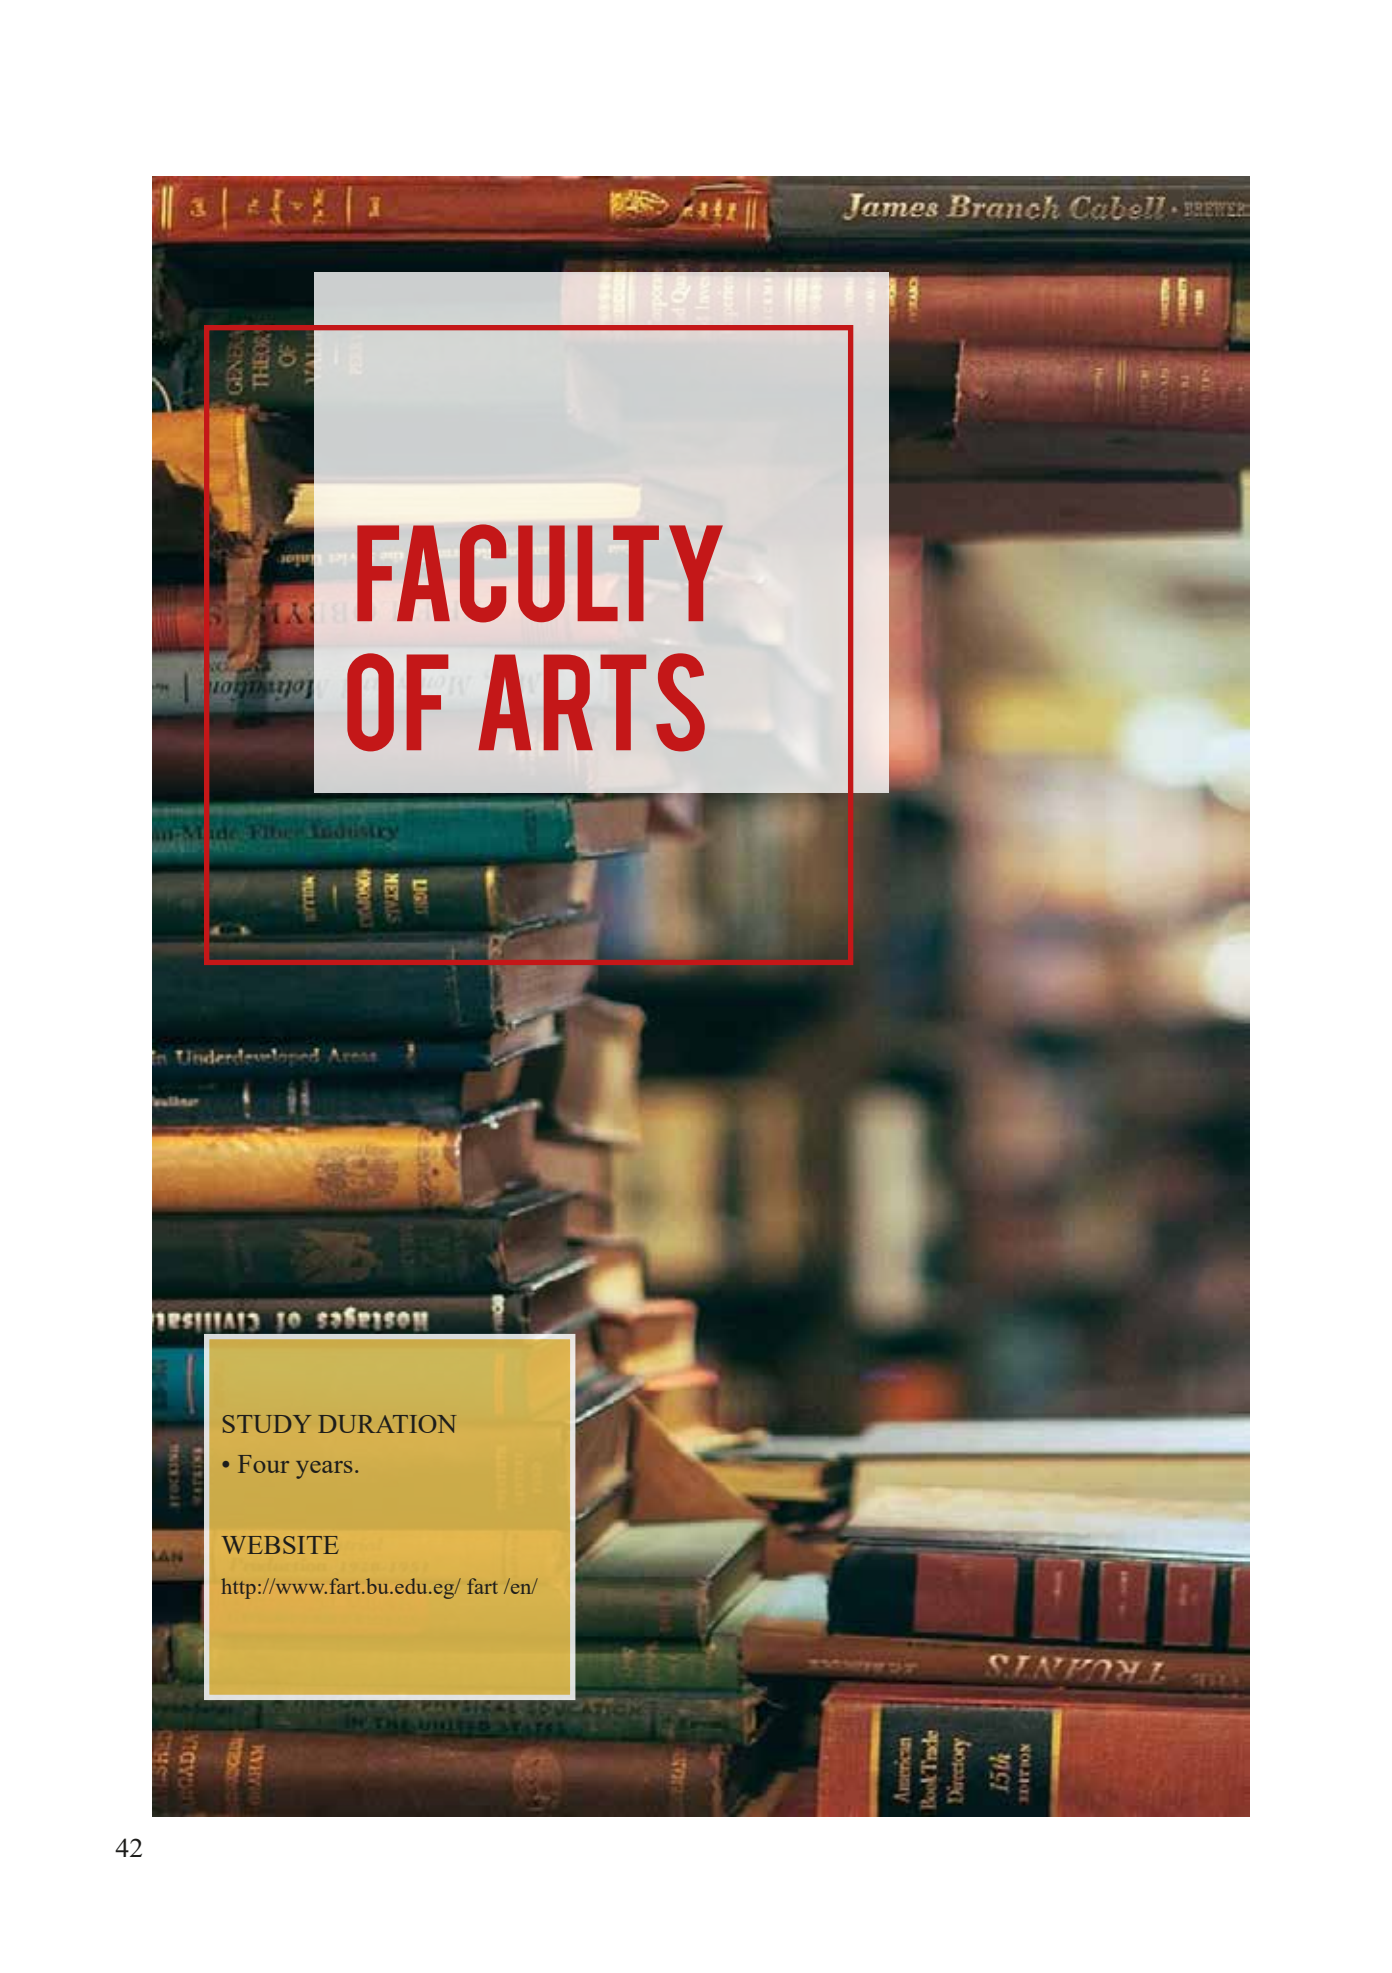

THE FACULTY OF LAW SEEKS TO

- Be a regional leader in law and community participation.
- Prepare distinguished cadres in knowledge and labor market.
- Expand the Continuing Education System throughout credit hours courses like:
 - Open Education and Postgraduate Studies.
 - Promote the level of Faculty member.
 - Confirm the quality of Scientific Research and
 - Faculty identity as scientific and culture institute.
 - Enhance the community participation and achieve the cohesion between the Faculty and community.

ACADEMIC DEGREES

The Faculty of Law grants

- 1- Bachelor's degree in Law (Arabic or English) .
- 2- Master's degree of Laws.
- 3- Doctorate degree in law.
- 4- Postgraduate diplomas.

FACULTY OF ARTS

STUDY DURATION

- Four years.

WEBSITE

<http://www.fart.bu.edu/ fart /en/>

FACULTY OF ARTS

- The Faculty of Arts at Benha University seeks to achieve leadership and excellence in the fields of arts and humanities at the local and regional level. In order to attract outstanding students scientifically and morally, and be able to graduate citizens of artistic and professional and literary, as well as looking forward to participate positively in scientific research, And opening scientific channels with other universities.

Accredited by National Authority for Quality Assurance and Accreditation of Education

ESTABLISHMENT

Was established in 1981

ACADEMIC DEPARTMENTS

1. Libraries & Information

20. Ophthalmology
21. Otorhinolaryngology
22. Urology
23. Orthopedic Surgery
24. Obstetrics & Gynecology
25. Anesthesia
26. Radiology
27. Cardiothoracic Surgery
28. Neurosurgery
29. Physical medicine & Rheumatology

ACADEMIC DEGREES

- Bachelor's Degree in Surgery medicine.

- Faculty of Medicine awards the following degrees: (Diplomas- Masters – Doctorate) at the stage of Post- graduate studies.

- Benha Faculty of Medicine is seeking for excellence in medical education and learning, research and innovation, influenced by and influential in the surrounding environment and promoting life at home.

- Benha Faculty of Medicine is committed to the graduation of competent doctors, able to compete, support scientific research to serve the development of medical services and support the surrounding environment in an ethical framework.

STUDY DURATION

- Five years, then they must spending two year as a compulsory training before getting the practice license.

WEBSITE

<http://fmed.bu.edu/en/>

FACULTY OF VETERINARY MEDICINE

Accredited by National Authority for Quality Assurance and Accreditation of Education

ESTABLISHMENT

Was established in 1981

- The Faculty of Veterinary Medicine - Benha University is committed to grant the society with a graduate who is able to offer excellent veterinary services to enhance livestock development through outstanding veterinary education and providing international scientific researches that comply with the values of the community, and providing excellent services to keep public health and food safety.

**FACULTY
OF VETERINARY
MEDICINE**

ACADEMIC DEGREES

1- General program - Bachelor of Veterinary Medical Sciences (BVSc)

2- Credit hours Academic programs

- Bachelor of veterinary medical sciences (Food Quality and Control)
 - Bachelor of veterinary medical sciences (Veterinary Drugs and Biological Preparations)
 - Bachelor of veterinary medical sciences (distinguished program of Pet animal medicine and surgery)
 - Bachelor of veterinary medical sciences distinct (distinguished program of Aquatic Animal Medicine)
 - Bachelor of veterinary medical sciences distinct (distinguished program of Biotechnology and bioanalysis)
-

3- Postgraduate Diploma

4- Master Degree in one of the majors of veterinary medical Sciences (M. V. Sc).

5- Doctor Degree in one of the majors of veterinary medical sciences (Ph.D).

ACADEMIC DEPARTMENTS

1-Aquatic animal diseases and management

2- Parasitology

3-Anatomy and Embryology

4-Food hygiene and control

5-Nutrition & Clinical nutrition

6-Biochemistry

7-Therigenology, gynecology and artificial insemination

8- Animal Wealth Development

9-Histology

10-Poultry and rabbit diseases

11-Pathology

12-Physiology

13-Zoonotic diseases

14-Clinical pathology

15-Pharmacology

16-Surgery, anesthesiology and radiology

17-Hygiene and animal care

18-Bacteriology, Immunology & mycology

19-Animal Medicine

20-Forensic Medicine and Toxicology

21-Virology

STUDY DURATION

- Five years are required.

FACULTY OF NURSING

ESTABLISHMENT

Was established in 1992.

- Accredited by National Authority for Quality Assurance and Accreditation of Education.

ACADEMIC DEPARTMENTS

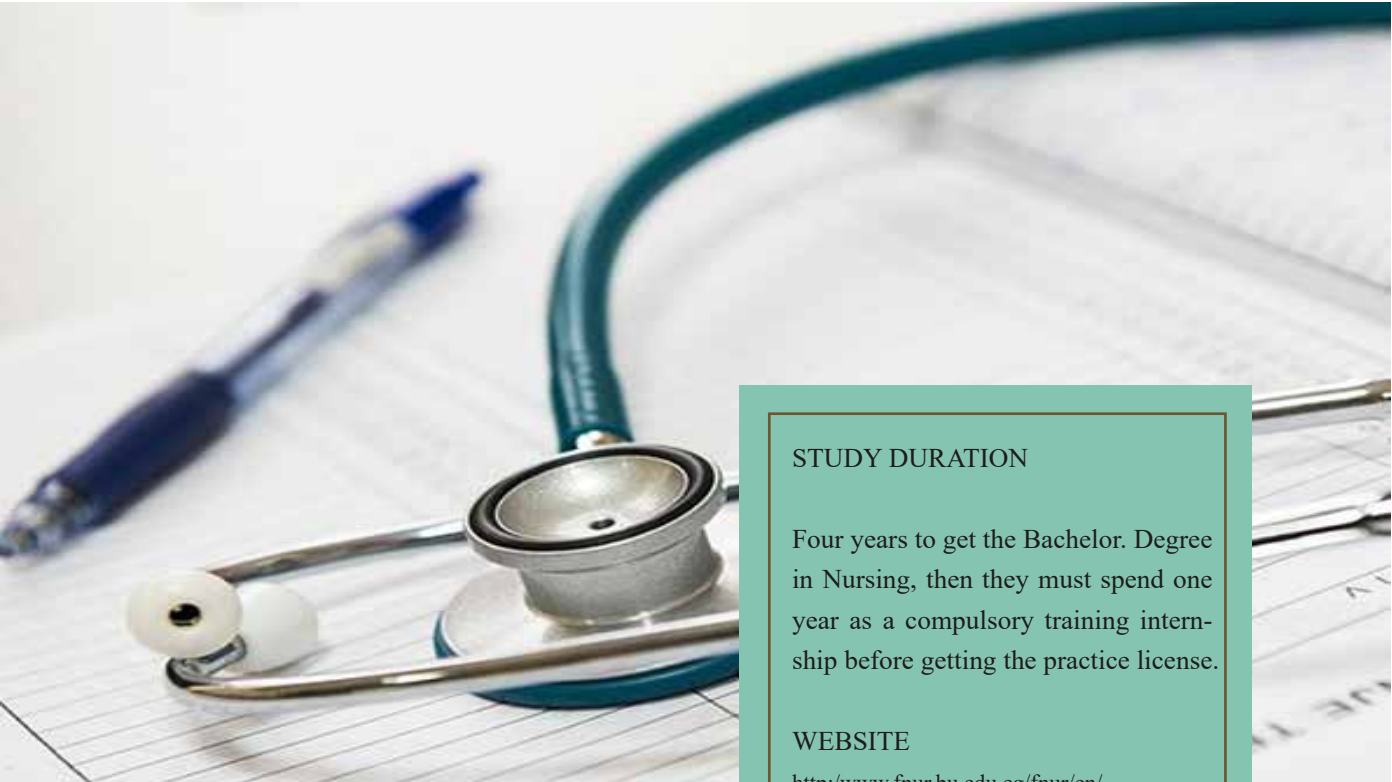

1. Medical and Surgical Nursing
 2. Community Health Nursing
 3. Maternal and Newborn Health Nursing
 4. Nursing Administration
 5. Psychiatric Nursing
 6. Pediatric Nursing
-

ACADEMIC DEGREES

- 1- Bachelor's degree in nursing science.
- 2- M.SC and PhD Degrees in nursing science in one of the following specialties:
Medical and Surgical Nursing — Obstetrics and Women's Health Nursing - Pediatric Nursing — Public Health Nursing –Nursing Service Administration— Psychiatric and Mental Health Nursing.

- The faculty aims to be a unique center to introduce high quality programs convenient to work in national & international marketing.
-

- The faculty aims to be a leader between other nursing faculties through providing the best learning chances for students and equipping them with knowledge ,skills, and behaviors & values which prepare them for succeeding in a world seeking for competency.

STUDY DURATION

Four years to get the Bachelor. Degree in Nursing, then they must spend one year as a compulsory training internship before getting the practice license.

كلية العلاج الطبيعي Faculty of Physical Therapy

FACULTY OF PHYSICAL THERAPY

ESTABLISHMENT

Established in 2020

For becoming a physical therapist requires areas of education and training in academic areas such as:

1. Anatomy
2. Biology
3. Histology
4. Biochemistry
5. Biophysics
6. Radiology
7. Pathology
8. Kinesiology
9. Physiology
10. Clinical Areas
11. Neurology
12. Surgery
13. Paediatric
14. Gynecology & Obstetrics
15. Orthopedic

ACADEMIC DEPARTMENTS

- 1- Basic science
- 2- P.T for Cardiovascular disorder and Geriatrics
- 3- P.T for Gynecology and Obstetrics
- 4- P.T for Musculoskeletal Disorder and it's surgery
- 5- P.T for Surgery
- 6- P.t for Neuromuscular Disorder and its Surgery
- 7- P.T for Growth and Development Disorders in children and it's surgery.

ACADEMIC DEGREES

- Physical Therapy Degrees in one of P.T specialists
- Bachelor degree

- The faculty is responsible for the graduation of physical therapists who are capable of providing competent services that accommodate various levels of work marketing regionally and international researchers who are able to develop efficient and consistent with tradition and values.

- Physical therapist often work as a part of rehabilitation team to provide hands-on therapy exercises and stretching maneuvers to patients which chronic conditions or serious injuries to ease pain and facilitate health and wellness, other members of health team may be physicians and surgeons.

- The physical therapy profession has been developed to face continuous changes and challenges in the health sector. The practice of physical therapy has become more and more dependent on the research results which make as well as professional and clinical standards a profession practice of physical service relying on evidence-based practice.

STUDY DURATION

- Five years of education and one training year internship means 6 years to gain bachelor degrees.

FACULTY OF LAW CREDIT HOURS PROGRAMS

- Law – English Section

OBOUR CAMPUS BENHA UNIVERSITY

Three programs started already in September 2019. These are Law – English Section, Commerce – English Section, and Biotechnology Program.

INFRASTRUCTURE

Benha University aims to have Obour Campus per international standards and a competitor to the top universities in the local, regional and even global rankings. This would be achieved by establishing a solid infrastructure that provides and supports the campus and its educational processes.

The infrastructure extends to cover the basic equipment including technical laboratories, computer labs, projectors, communication equipment, cameras, recording, air and video conferences, state-of-the-art and information network covering the entire campus.

SCOPE

Benha University is expanding its Obour Campus by contributing to the wheel of achievements in the country by subsidizing to the optimal use of available resources in the governorates and areas covered by the university and in cooperation with other universities and governorates to provide services on an area extending to the borders of Egypt and beyond borders to reach neighboring countries and the rest of the world.

It is also one of the priorities of the university in its new campus to use and develop various technological methods in teaching and scientific research processes in line with the global changes in the areas of application of these modern and constantly evolving mechanisms.

INDUSTRY AND TECHNOLOGY

The University has prepared several plans in the field of effective cooperation with the industry in various applied fields. The formation of an academic industrial council with the participation of senior industrialists in the areas near the campus with their counterparts from academic work.

So that the services provided by the campus is up to a high degree of efficiency affecting the community by achieving the targeted development of the specifications of the products of Egyptian industries and competitiveness of the Egyptian graduate and the level of Welfare of the Egyptian citizen.

In addition to the above-mentioned Council, directing scientific research to the developmental needs of the State in the different industries and according to the national research plan focusing on some areas such as environmental and sustainability, water resources, and energy and renewable energy research.

Also, other public and private requirements changing according to time, technology and available resources are to be considered. The plans also include the use of industry experts in various fields to participate in teaching and demonstrating real practice to clarify the aspects and details applied in education as well as their participation in the research process and environmental services that can be provided to the community.

ENVIRONMENT

A fundamental consideration in the plans of the new university campus is to focus on the environmental needs of the community.

This is due to the concern for natural resources, conservation and development. Also, it is aimed to conserve energy and sources and reduce consumption rates.

In addition, it is targeted to preserve the natural components of the environment of water, air and soil as the natural composition and to protect them from pollution and control the causes of pollution. In addition, it is intended to provide a distinct environment for the citizen in addition to the above, such as protection from the sound and visual pollutants and the preservation of architectural, religious, social and other heritage.

LIFE VARIABLES

The University has taken into account in the establishment of its new campus crossing the dynamic aspect of rapid changes characterized by the current era.

This starts with the organizational structure of the branch so that it is proportionate with its expected expansion in the volume of work and quality of services provided by the campus.

In addition, the study programs are designed to be modern in order to compete with the corresponding international programs and to allow the addition of new scientific topics in the fields of specialization. In addition it is directed to consider the natural flexibility in the research process, topics and methods of research applications.

INNOVATION

All of the above objectives can be achieved only through the development of innovative and creative capacity of the student and graduate through raising the cognitive capacity and training him to think, analyze, find and evaluate possible solutions to the current and expected challenges of society in the light of current inputs and levels of development targeted.

This can only come with the guidance of faculty members and researchers in partnership with industry experts and stakeholders from the community. The university plans to establish centers to support innovation and support innovative projects in the new branch.

TEACHING METHODS

The educational methods in the new branch depend on the modern educational systems such as relying on the student to be the focus of the educational process. This is achieved by encouraging and motivating him to research, summarize, find solutions, work technical reports and presentations. Also, the process would encourage teamwork, the development of leadership skills and the use of various methods of assessment through workshops, discussions, periodic work and diversification of written exam questions to cover the assessment of primary and specialized knowledge and technical and personal skills.

**“WE BRING THE
WORLD TO YOU”**

(IRO) WORD

In the era of globalization, it becomes necessary to engage in international participation. Internationalization, Assistance, and Cooperation are our aims and challenges. We widen and deepen the international network of our university. We care for students and scientists going abroad or coming to BU. We support international joint projects in teaching, studies and research.

Prof. Nasser El Gizawy
Vice President of Benha University
for Postgraduate Studies & Research

INTERNATIONAL RELATIONS OFFICE

IRO MESSAGE

The aim of IRO team is to communicate internationally as well as locally through cooperation with universities in joint programs in various disciplines and to host distinct international programs that enrich capabilities in modern disciplines. Also, IRO team is intended to participate in joint research with partners abroad to have an eligible rank among international community.

Within the IRO, we all have our own special areas of responsibility and expertise, but we also work as a team, so that even when some staff are away from the office, your enquiries will be dealt with promptly.

IRO Team

IRO MISSION

IRO is dedicated to enhance a vibrant international community and to fostering cross-cultural experience. We welcome, support and strengthen diversity through advocacy and holistic service. Enriching connections is our goal.

IRO VISION

BU - The leading university for quality student engagement and globally partnerships.

IRO

“WE BRING THE WORLD TO YOU”

Our commitment to internationalization results from our ambition to achieve and maintain world-class quality in all that we do.

Our goal is to provide all of our students, domestic and international, with a truly international experience either at Egypt or through one of our partners.

The outcome of our strategy is best reflected by our graduates who we expect are well-prepared to make a difference in a globalized world.
